

SELECTING THE BEST COSMETIC SURGERY PRACTICE FOR YOU

Q U E S T I O N S T O C O N S I D E R

RevealSM Surgery is performed only by board-certified plastic surgeons skilled in a multitude of plastic-surgery options, including surgical body shaping and facial rejuvenation and reconstruction.

We create post-surgical treatment programs designed to help you achieve the best results possible.

What is the surgeon's training and certification?

Any practicing physician may call him- or herself a cosmetic surgeon, but only physicians who are certified by the American Board of Plastic Surgery have received years of specialized training in plastic surgery (both cosmetic and reconstructive surgery) and have passed rigorous examinations to demonstrate their competence in the field. RevealSM Surgery is performed only by board-certified plastic surgeons skilled in a multitude of plastic-surgery options, including surgical body shaping (tummy tucks, breast augmentation, etc.) and facial rejuvenation and reconstruction (lifts, rhinoplasty, facial implants, etc).

How much experience does the practice have?

In today's climate of "here one day, gone the next" businesses, evaluating the overall history and experience of the medical practice is as important as assessing its surgeons. With over 300,000 procedures completed across our seven locations, RevealSM is the Washington, D.C. area's premier destination for cosmetic treatments, including light-based hair removal, physician-grade skincare and body shaping services. RevealSM will perform over 50,000 treatments this year alone, many with repeat clients; no other provider in the D.C. area comes close in terms of experience.

Our Medical Director and medical staff take great care in developing, testing and continuously refining Reveal's protocols, assiduously tracking outcomes to maintain the highest levels of safety and efficacy. In fact, due to our national reputation, RevealSM is regularly among the first clinical recipients of new cosmetic technologies. As a RevealSM client, you can rest assured that we conduct independent clinical evaluations of all new services and technologies before they are introduced.

What is their approach to treatment?

At RevealSM Surgery, we believe in creating an exceptional experience for each client. We focus on the goals and needs of each individual client so that we can create the type of customized, personalized experience and results you won't find anywhere else.

Because client education is of paramount importance, your RevealSM Surgery experience begins with a thorough consultation in which your questions are answered thoroughly. We will provide you with detailed FAQs about your surgeries of interest, as well as before-and-after photos of clients. Additionally, our extensive non-surgical aesthetic expertise allows us to create post-surgical treatment programs designed to enhance the outcome of your procedure so that you can achieve the most pleasing, natural-looking results possible. For example, EnhanceSM Breast Augmentation may be combined with a series of post-surgical ScarRepairSM treatments to minimize any signs of surgery.

Once you become a RevealSM client, we are committed to helping you reach all of your long-term aesthetic goals, be they surgical or non-invasive. As your needs change over time, our network of centers, Membership Advisors and highly trained Clinicians will continue to guide you through the ever-evolving treatment options.
